

Online educational platform **DRAGONLEARN.CO.ZA** presents

The international online Mathematics competition for school students from Brazil, Russia, India, China, South Africa, Indonesia and Vietnam

# **BRICS** MATH.COM+

## Preparatory round

### Online competition in Mathematics for learners from Classes 1-12

April 22 - May 22, 2020

The competition consists of the best tasks of past years and provides an opportunity to practice solving non-standard problems.

Each participant has the opportunity to solve interactive tasks without any restrictions.

### How to participate in **BRICS** MATH.COM+

- 1** Teachers go to the website [www.bricsmath.com](http://www.bricsmath.com) and register their students online.
  - 2** Students get their individual logins and passwords and can solve the tasks on any device connected to the Internet.
- !** Those students who have [dragonlearn.co.za](http://dragonlearn.co.za) profiles can use their logins and passwords for the competition.

**PARTICIPATION IS FREE OF CHARGE**

More information about competition is on the website [www.bricsmath.com](http://www.bricsmath.com)
